### IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Rotent Number:

6,995,909

Issued:

February 7, 2006

Name of Patentee:

Hayashi et al.

Title of Invention:

LENS, OPTICAL HEAD, OPTICAL INFORMATION WRITING/READING APPARATUS AND OPTICAL

INFORMATION RECORDING MEDIUM WRITING/READING

**METHOD** 

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Attention:

Decision and Certificate of Correction Branch of the Patent Issue Division

## REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT FOR PTO MISTAKE (37 CFR 1.322(a))

- 1. Attached in duplicate is Form PTO-1050 with at least one copy being suitable for printing.
- 2. Correction of the Official Letters Patent is respectfully requested in view of the following text, which appears correctly in the application file:

On the cover page, Item (57), please replace the Abstract with the following Abstract, as attached to the specification filed April 5, 2002:

-- Conventional lenses for DVD/CD compatible writing/reading are liable to CD jitter deterioration due to phase shifts in a central area. Setting a corresponding base material thickness of an intermediate area to greater than 1.2 mm which is the base material thickness of the CD makes it possible to reduce jitter deterioration due to phase shifts and eliminate level differences between the central area and peripheral area, facilitate manufacturing of processing metal molds, allow extension of a life, which in turn makes it possible to use glass as a lens material, realize cost reduction or provide a system with higher precision and higher reliability.--

MTS-3326US PATENT

3. Please send the Certificate to:

Name:

Daniel N. Calder

Address:

RatnerPrestia P.O. Box 980

Valley Forge, PA 19482

(610) 407-0700

Name of Assignee:

Matsushita Electric Industrial Co., Ltd.

Assignment Recorded on:

July 30, 2002.

Reel

013233.

Frame
